

POLICY 3.16: DISCIPLINE

The Board charges the administration to establish and implement disciplinary regulations and procedures for student violations of college rules and regulations including plagiarism and other forms of academic dishonesty.

It's the right of all members of the Sandburg community (e.g., administrators, faculty, support staff and students) to report student violations of local, state or federal law, or college policies and procedures to the chief student development officer. Where the chief student development officer determines that the violation requires immediate attention, he/she will act accordingly as the situation requires. If he/she receives a complaint, he/she will respond within 72 hours.
